

SEMS Pinhole Detector

294 E 600 N
Valparaiso, IN 46383
USA

Phone: 1 (219) 462-2373
Email: info@sems-inc.com

The SEMS Pinhole Detection System works by examining the surface of moving web based products. The system detects, measures, and logs holes, edge cracks, and web width. The customer's product is back-lit with monochrome LED lighting to provide a clean image for the sensors.
